

COST Action 23137
Print Culture and Public Spheres in Central Europe (1500–1800) | PCPS^{CE}
Virtual Mobility Grant
CALL 5: Technical Maintenance of the Zotero Bibliographic Database

Important Dates

Call closes: 9 October 2025

Notification of Results: 3 days after submission of complete application

Mission Period: 13 October – 31 October 2025

About this Action

PCPS^{CE} investigates the interactions between the pre-modern media revolution through printing and the emergence of public spheres in Central Europe in early modern history. The Action aims to build a European and global network of stakeholders from education, research and cultural institutions with a special focus on Young Researchers and Innovators. It works towards an integrative methodology that brings together experts from different national and disciplinary backgrounds. The Action includes work on joint publications such as a compendium on the book history of Central Europe and the development of an annotated catalogue of digital data and tools. The initiative aims to promote a new scholarly and public historical awareness of the diverse, non-national pasts of Central Europe. More information can be found in the Action's Memorandum of Understanding (MoU) available in the following web page: www.cost.eu/actions/CA23137.

Definition of Virtual Mobility Grant:

VM grants are given to a COST Action participant implementing virtual collaborative initiatives. The VM applicant(s) are Action participants with a primary affiliation to an institution located in a COST Full or Cooperating Member country or a COST Near Neighbouring Country participating in the Action. The applicant(s) shall inform the Grant Awarding Coordinator and Core Group about the aim of the VM Grant and how its outcomes will generate benefits to the Action, actively contribute to the overall objectives and relevant deliverables of the Action. The applicant must submit an activity report at the end, to be approved by the Grant Awarding Coordinator and voted by the Core Group.

The maximum amount for a VM grant is 1,500€.

Main objective of the Virtual Mobility Grant:

The aim of this VM grant is to oversee the technical management and further development of the existing Zotero-based system for systematically collecting bibliographic data in support of the Compendium. The position focuses on creating a practical, well-integrated framework that aligns with the broader goals of the CA. It requires strong expertise in bibliography, proficiency with Zotero tools and citation workflows, and technical or programming skills to ensure the long-term usability and scalability of the database. Attention to detail in editing and a solid understanding of metadata standards are also essential to maintain consistency, reliability, and the scholarly quality of the references collected.

Application process:

The applicant encodes a VM application by logging into e-COST and clicking on the “My Grant Applications”, where a new application can be encoded.

Application on e-COST will be communicated to Joëlle Weis, Grant Awarding Coordinator.

Requirements after approval:
